Sustainable Development Goals (SDGs) – Overview

Subject: ESSR (BE04000101) | Semester: 4 | Guided by: **Hema Vanar**

College: **SAL College of Engineering** | Name: **Maheriya Hardikbhai Sureshbhai** | Enrollment No: **251133107016**

Introduction

Meeting Present Needs

Sustainable development meets the needs of the present without compromising the ability of future generations to meet their own needs.

Three Pillars of Balance

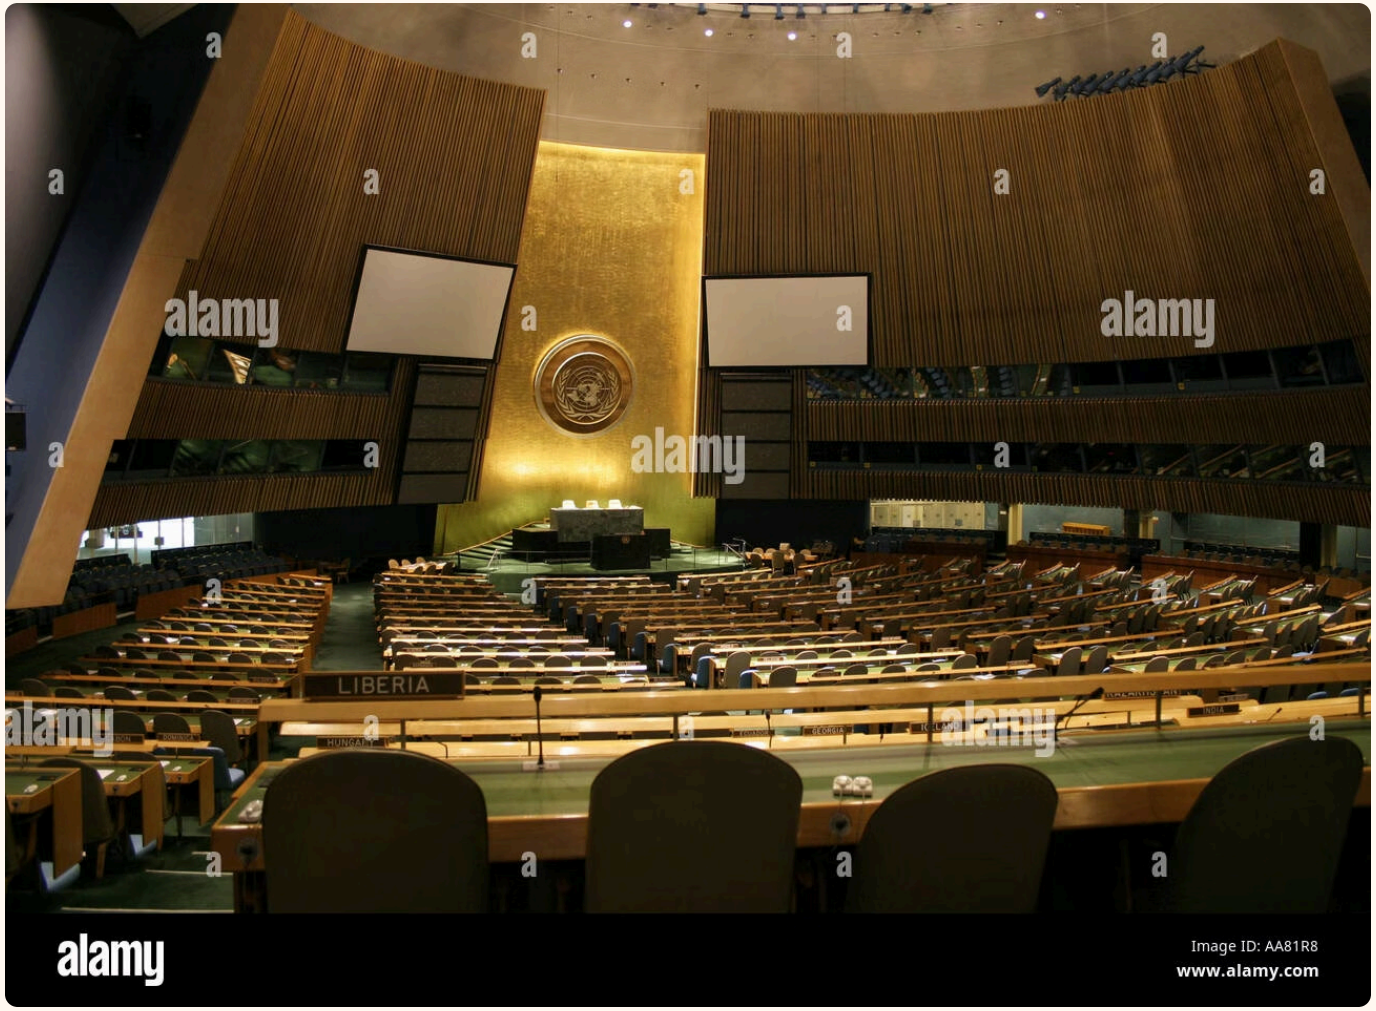

A careful balance between **economic growth**, **social inclusion**, and **environmental protection** is at the heart of sustainability.

A Global Framework

The SDGs provide a universally agreed framework that guides nations, organisations, and individuals towards meaningful, lasting progress.

What are SDGs?

2030 AGENDA

17 Goals for a Better World

The Sustainable Development Goals are **17 global goals** adopted by all United Nations Member States in **2015**. They form the core of the **2030 Agenda for Sustainable Development**.

Their overarching aim is to achieve a better and more sustainable future for all people on the planet by the year **2030** — addressing the root causes of poverty, inequality, and climate change.

Adopted unanimously by 193 UN Member States in September 2015.

Key Features of the SDGs

Universal

Applicable to **all countries** — developed and developing alike. No nation is exempt from the responsibility to act.

Integrated & Interconnected

Progress in one goal supports others. The goals are designed to work together as a **unified system**.

Inclusive

Built on the principle of **"leaving no one behind"** — ensuring the most vulnerable populations are prioritised.

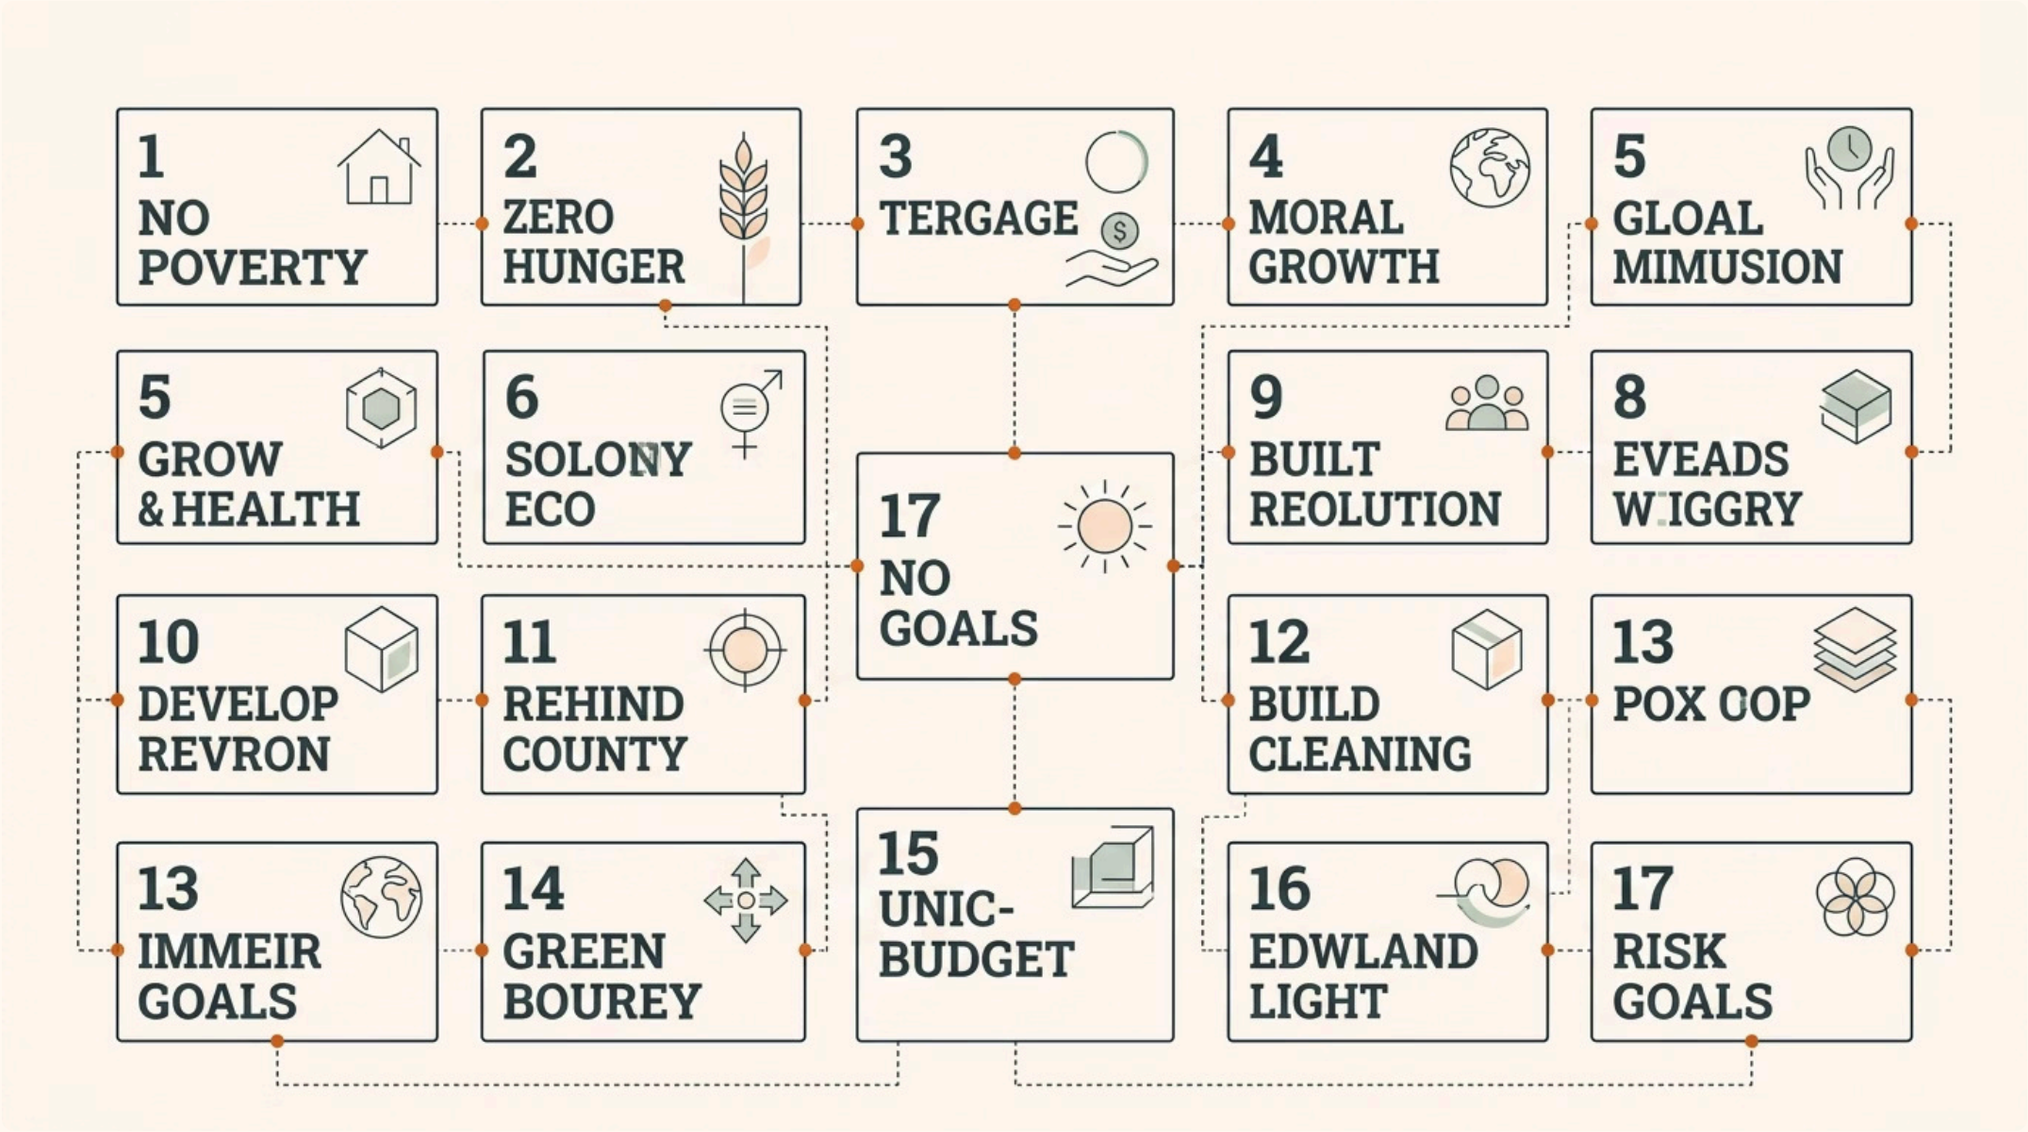

169 Measurable Targets

Backed by **169 specific targets** and hundreds of indicators to track and measure real-world progress.

All 17 SDGs – Overview

The 17 SDGs span three dimensions of sustainable development — **social**, **economic**, and **environmental** — forming a comprehensive blueprint for a prosperous and equitable world by 2030.

Made with GAMMA

Goals 1–3: People & Health

🌍 Goal 1 – No Poverty

End poverty in all its forms everywhere. Improve living standards and ensure social protection for the most vulnerable people across the globe.

🌾 Goal 2 – Zero Hunger

End hunger, achieve food security, improve nutrition, and promote sustainable agriculture to feed a growing global population.

❤️ Goal 3 – Good Health

Ensure healthy lives and promote well-being for all at all ages through better healthcare systems, disease prevention, and universal health coverage.

Goals 4–5: Education & Equality

GOAL 4

Quality Education

Ensure inclusive and equitable quality education and promote **lifelong learning opportunities** for all. This includes access to early childhood development, vocational training, and higher education — leaving no learner behind.

GOAL 5

Gender Equality

Achieve gender equality and **empower all women and girls**. This means eliminating discrimination, ensuring equal opportunities in education and employment, and ending all forms of violence against women.

Made with GAMMA

Environmental Goals

Clean Water & Sanitation

Ensure availability and sustainable management of water and sanitation for all.

Affordable & Clean Energy

Ensure access to affordable, reliable, sustainable, and modern energy for all.

Climate Action

Take urgent action to combat climate change and its devastating impacts on communities worldwide.

Life Below Water & On Land

Protect oceans, seas, forests, and terrestrial ecosystems — conserving biodiversity and natural resources for future generations.

➡️ Together, these goals form a shield for our planet's most precious natural resources.

Made with GAMMA

Economic & Social Goals

ECONOMIC

Driving Prosperity

Economic Growth

Promote sustained, inclusive, and sustainable economic growth and full, productive employment for all.

Innovation & Infrastructure

Build resilient infrastructure, promote inclusive industrialisation, and foster innovation across sectors.

Responsible Consumption

Ensure sustainable consumption and production patterns to reduce waste and environmental impact.

SOCIAL

Building Fairer Societies

Reduced Inequality

Reduce inequality within and among countries, ensuring fair distribution of resources and opportunities.

Sustainable Cities

Make cities and human settlements inclusive, safe, resilient, and sustainable for growing urban populations.

Peace & Justice

Promote peaceful and inclusive societies, provide access to justice for all, and build effective institutions.

Made with GAMMA

Importance & Conclusion

Reduces Poverty & Inequality

The SDGs directly target the root causes of poverty and social exclusion, creating pathways to a more equitable world.

Protects the Environment

By addressing climate change, biodiversity loss, and resource depletion, the SDGs safeguard the planet for future generations.

Ensures Peace & Cooperation

The goals foster global partnerships, peaceful institutions, and international cooperation across all nations.

The SDGs are **essential for our shared future**. Every individual, institution, and government must contribute to achieving these goals by **2030**. The time to act is now.
